ABPM-05 & BlueBP-05

Ambulatory Blood Pressure Monitors

Meditech

Cardiovascular Monitoring Solutions

Meditech is one of the worldwide technology leaders in the area of manufacturing ambulatory blood pressure monitors and ECG devices.

Established in 1990 by Hungarian private entrepreneurs, Meditech develops medical devices and software solutions for monitoring risk factors for cardiovascular diseases. Meditech www.meditech.eu normal adult cuff ¢€

ABPM-05 Ambulatory BP Monitor

ABPM-05 provides accurate information on blood pressure variability, overnight dipping and morning surge for reliable hypertension control.

BlueBP-05, its Bluetooth-capable version is also available!

ABPM-05 benefits

- meets BHS and AAMI accuracy criteria, recommended by dabl®
- proprietary Meditech dual-valve system for excellent patient safety
- IP22 water-resistance rating
- sleep-friendly algorithm
- manual programming option
- available in OEM
- free, all-inclusive software

Ambulatory blood pressure measurement gives information over and above conventional blood pressure measurement.

Why ABPM is needed?

- for a more accurate BP profile
- to avoid the effects of white coat hypertension
- to record nighttime BP, a major health risk indicator
- to lower the chance of misdiagnosis
- for better drug treatment

| Specifications | ABPM-05 | BlueBP-05 |
|--------------------------|---|--------------------|
| dimensions | 98*69*29 mm | |
| weight (excl. batteries) | 190g | |
| memory | internal | |
| data transfer | USB optical cable | wireless Bluetooth |
| power supply | 2 AA batteries | |
| LCD display | 40*22 mm | |
| numbers of keys | 3 (start, event, day/night) | |
| operation | up to 51 hours | |
| measurement method | oscillometric, stepwise deflation | |
| measurement range | BP: 30-260 mmHg, pulse: 40-200 bpm | |
| passive accuracy | +/- 3 mmHg or 2% of the measured value | |
| sampling periods | 4 (morning, active, passive, special) | |
| storage capacity | 600 measurements | |
| conformity certificates | CE, FDA | CE |
| validations | algorithm validated to BHS & AAMI protocols | |

Free Software Solutions

Both for Busy GPs & Research Purposes

Both EasyABPM and CardioVisions programs display statistics for active, passive, morning and special periods. Statistics include systolic BP, diastolic BP, mean arterial pressure (MAP), pulse pressure (PP), pulse rate, minimum and maximum values, standard deviation (SD), percent time elevation (PTE), hypertension load (hyperbaric index), diurnal index (day/night index) and morning surge.
